

APPLICATION AREAS

 Floors/Walls Machinery & Parts • Concrete Food Processing Equipment • Marine Decks/Hulls

CAUTION: DO NOT USE ON ALUMINUM

- **KEY FEATURES AND BENEFITS**
- Phosphate-Free
- Biodegradable
- Non-flammable
- Solvent free
- · Environmentally safe
- NSF A1, A4 registation number 157900
- Water soluble
- Saponifies animal and vegetable fats

PACKAGING

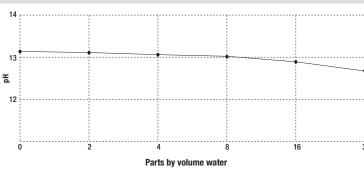

20L 208L 1000L

DIRECTIONS

Dilute to desired strength. Apply with mop, brush, sponge, cloth or spray. Allow a minute for deep penetration. If necessary, use stiff brush or cloth to loosen tough dirt.

Rinse with water. Reapply as needed. When used to clean aluminum, rinse quickly to avoid staining. On plastics and paints, test a small area for compatibility before using.

pH vs. Dilution

DESCRIPTION

Chesterton® 360(E) Phosphate-Free Cleaner is a powerful industrial strength hard surface cleaner designed for use in environmentally sensitive areas. Chesterton 360(E) Phosphate-Free Cleaner is concentrated. It will penetrate, lift, emulsify and disperse dirt, oil, grease, mildew and other types of soils from a variety of hard surfaces. It is a versatile product that has hundreds of applications in the industrial and marine markets. It can be used to clean food processing equipment in all federally inspected meat and poultry plants.

Chesterton 360(E) Phosphate-Free Cleaner is a high alkaline cleaner containing only non-phosphate builders and surfactants.

Because it does not contain these bio-stimulants, it will not contribute to eutrophication of the waterways.

Recommended Minimum Concentrations (In Water) General Cleaning 7% Heavy Cleaning 15% 2% Light Cleaning Crayon & Felt Tip Marker Concentrated Painted Surfaces 7% Acrylic Floor Finishes 10% Built Up Acrylic Floor Finishes 15%

Appearance Transparent, Blue-Green Liquid Flash Point, Closed Cup (ASTM D 93-85) Specific Gravity Solubility in Water Complete pH (Concentrated) Density Freeze Thaw Stability Passed 6 cycles
